Judge Burrell, was a brains. and though he never held a court in the Sound since our last advices. the Territory, yet he possessed the will and the nerve to do his duty faithfully he supplied with as good a man.

John Mitchell, of the town of Chem ung, was taken with a fit of vomiting, and finally disgorged from his stomach a lizzard near nine inches long! He had drank several potations of whisky, together with three quarts of milk that day, and it is supposed that the lizzard got drunk on milk punch-hence his getting so high as to come out of his odgements. The lizzard is supposed to have been swallowed some four years since, as about that time Mr. Mitchell inhaled something while watching at a "deer lick," which has caused a slight debility of the stomach ever since.-Elmira Gazette.

A TRAGEDY IN CALIFORNIA.

A telegraphic despatch to the Sacramento American, dated San Andreas, Sept. 26, says: A cold-blooded murder Dr. Armstrong, by a man named C. The next day he was obliged to keep was perpetrated at Angel's Camp on Colebrook, at 4 o'clock, P. M., on Friday. Armstrong accused Colbrook of stealing hogs some time ago; and coming in, he got on board and repaired to keep the vessel alone, being abandoned by all hands. M. G. MOIES & CO., No. 16, Main Street, St. Louis Mo.

GENTS for Straul's Corn and Wheat Mill the "Queen of the South," This remarkable Patent for the United States have been granted, securing the invention for fourteen years. This Mill has sustained itself wherever it has been brought into competition with other Mills. It was run against the other make of Mills of our city, at the Dhio Sinte Fair, in 1850, when it draw a diploma as the best Corn Mill, and was awarded a fine silver medal. Of these Mills we manufacture five rices for com, and three expressly for granding wheat flour.

The peculiar novelty of this Mill is, the under stone is the running stone, in all enses. There is no limit to the speed, and as speed is everything in grinding, it will out grind any upper grinder in the world. Secondly: By this arrangement we are enabled to get grain into the Mill with a very small eye, coassquently we grind nearer the centre, and of course with less power than any upper runner can be made. Thirdly: Our Mill takes any kind of prain without choking. We warrant against cooking in any and all cases. This is a great vexation causing delay and tion must be high to do much business. Fourthly: Our Mills never take unjury by running empty-the under stone out touching the upper our. no injury can be done. This is an important advantage over all Mills where the upper stone is the run-nor. August 23, 1850. vini2tf

EEDY, JAMESON & CO., of Regain from the above Manufactory, and recieve Nos. 170 and 172 Main St., St. Louis. WE are now in receipt of the most complete and magnificent slock, ever offered to the Western Trade. Merchants visiting this city are invited to make an examination of our stock and priors.
